SUMMARY

Full stack developer with a curious soul and a passion for creativity. Drawing upon a life as a craftsman and a musician to bring my unique perspective to new projects.

EDUCATION

General Assembly: Web Development Immersive 2018
Full-stack Web Development Program with 700+ hours in class and creating deliverables. Highly focused on the implementation of the MERN stack with exposure to ReactJS, Python, and Django. Agile work environments and Git workflows utilized in assignments and project sprints.

SKILLS

FRONT END: HTML5, CSS3, Javascript, React Js, jQuery, Bootstrap, p5 Js
BACK END: Node Js, Python, SQL, PostgreSQL, MongoDB

PROJECTS

Frequency Analyzer
P5 javascript project that takes audio input from the mic in order to manipulate shapes with amplitude and math.

Trail Tracker
Full stack web app that helps you find nearby parks and trails with just a click on map. Created using Mongo DB, Express, React Js, and Node Js
